

July 27,2010

Dear CDR,

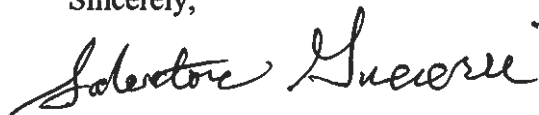

I want to express my feelings of the CDR program. Please know that I have had the opportunity to be a part of the CDR program here in Geneva, New York. Once with my Aunt and now with my wife.

It is a great program that helps people with disabilities, illnesses and over all just getting old. My aunt was disabled due to dwarfism and was able to live in her home until she passed away last year. That was her wish. We could not have done this without CDR. She had one on one care and it was great care. . We were able to choose our own attendants who did everything that we needed done for her. There was a great relief to know that she was happy and well cared for-and oh yes she didn't have to go into a nursing home.

There are a lot of people who are in this situation that need help with their loved ones. CDR is the best program available . It gives independence and self worth to people with disabilities. Lets do all we can to keep it going! Please do not abolish this great program in Monroe County-or anywhere for that matter.

You have my permission to print this letter.

Sincerely,

A handwritten signature in cursive script that reads "Salvatore Guereri".

Salvatore R. Guereri
